re: Expo Studios  
Port St Lucie, FL

To whom it may concern:

This letter is to serve as a recommendation for Expo Studios and it's owner, Mr Sam Malo.

Our firm has engaged the services of Expo Studios for over 10 years on a number of successful projects. These services include Structural, Mechanical, Plumbing and Electrical design and drafting for residential, commercial and institutional projects.

We have found Expo Studios to be responsive, detailed and accurate in the layout and drafting of our projects. The documentation produced is clear, detailed and able to accurately convey the design intent to the Client, Architect and Contractor. Furthermore, Expo Studios has been able to promptly deal with last minute changes during construction to keep the projects moving forward.

We would recommend their services to any Architect, Engineer or Contractor needing clear and accurate Construction Documents.

Very truly yours,  
**THE SHAFFER GROUP, INC.**
