To Whom It May Concern

April 21, 2009

I have known Mr. Sam Malo professionally and as a friend for nearly 10 years, I met Sam in 1999 while he was working for an Engineering Firm in Ft. Lauderdale, He worked along with me on the MEP portion of a very memorable, Adriani's Residence project.

He is very intelligent talented hard working individual with a great knowledge of construction industries, especially in the field of Architectural and MEP design and drafting, he is always a team player with a keen sense to visualize the best solution to a design problem.

I would highly recommend Mr. Malo and truly believe that he would be a great asset to your Firm as a team member.

Sincerely,

Iradj S. Shojaie, Architect
